

Uncover new value through our innovative specialty GPO

Delivering a market-share growth model unlike any other GPO offering

With the expertise of ION Solutions at our foundation, partnering with Specialty Advancement NetworkSM (SAN) creates new opportunities for manufacturers of specialty products.

- Ensure specialty providers have access to leading solutions, regardless of channel
- Gain new tools and efficiencies to create strong contract value
- Build on proven solutions leveraged by over 5,000 community-based physicians

Helping manufacturers achieve growth through a unique GPO partnership for the specialty market

Distributor-owned trade-specific GPO

Our unique offering includes solutions that support formulary management strategies

A trusted partner in the GPO space

With over 20 years of ION contracting in the specialty market, we strategically partner with manufacturers to create new value

Robust pharmaceutical and health system partnerships

Expands access to patient channels and addresses value gaps in the health system market

Extending our marketing-leading GPO model to an innovative network of health systems

Reach a niche market of high-volume, health-system owned outpatient infusion clinics, outpatient pharmacies and specialty pharmacies (non-340B) through our specialty purchasing network.
